Skills Games 2027 Partnership Levels

How the Partnership Level is Determined

Different forms of cooperation generate points, which together determine the level of partnership. Each form of cooperation contributes points in different ways.

The value of the partnership includes:

- **Monetary donation** (point multiplier 2)
- **Donations in kind:** donation of goods, materials, machinery or equipment (point multiplier 1.5)
Please note: gifts given to competitors or judges do not contribute to the partnership value.
- **Loan of equipment:** the value of lending goods, machinery or equipment is estimated based on a reasonable rental price, approximately 5–10% depending on the equipment and its lifespan (point multiplier 1)
- **Expert work:** for example, acting as a judge, carrying out installations or design work, or producing and publishing an article in the partner's own media (EUR 500 / 8-hour day, point multiplier 1)
- **Services:** for example, freight and transport services or providing advertising space calculated based on actual costs (point multiplier 1)

Example of Partnership Point Calculation

Activity	Points earned
The partner makes a monetary contribution to the event organiser. Amount: €3,000, point multiplier 2.	6000
The partner lends equipment and materials that will be returned after the competition. Value of the items: €4,500, point multiplier 1.	4500
The partner donates products that are used during the competition or remain with the educational institution after the event. Value of the products: €4,000, point multiplier 1.5.	6000
A representative of the partner serves as a judge for three competition days. Value: $3 \times €500$, point multiplier 1.	1500
The partner publishes a full-page article about vocational skills competitions in its customer magazine. The work requires 8 hours. Value: $1 \times 500 = 500$ €, point multiplier 1.	500
The partner provides the event organiser with complimentary advertising space in its customer magazine, with a sales value of: €1,500, point multiplier 1.	1500
TOTAL PARTNERSHIP POINTS 20 000 = Silver Partner	20000

Partnership Levels

Ruby Partner (minimum monetary contribution 35 000 €)	
Diamond Partner (minimum monetary contribution 10 000 €)	100 000 points

A Prize Partner donates the prize money for a competition category:
(€1,800 for an individual category, €3,600 for a team category)

Partner Visibility and Benefits

The visibility of the **partner's logo, the extent of communication cooperation, and the VIP benefits** depend on the partnership level.

Main partnership visibility is focused on the event week at Messukeskus.

Exceptions:

- Ruby Partners may also receive city-wide visibility for a few weeks before the event; the schedule will be confirmed later.
- the partner's logo will be published on the website immediately after the partnership agreement has been signed.

If a partnership agreement is signed after the latest possible publication date for a blog post or social media post included in the partnership package, we cannot guarantee that these benefits can be delivered. The final deadline for submitting materials is specified in Table 2.
